Extracted from:

Augmented Reality

A Practical Guide

This PDF file contains pages extracted from Augmented Reality, published by the Pragmatic Bookshelf. For more information or to purchase a paperback or PDF copy, please visit http://www.pragprog.com.

Note: This extract contains some colored text (particularly in code listing). This is available only in online versions of the books. The printed versions are black and white. Pagination might vary between the online and printer versions; the content is otherwise identical.

Contents

1 About Augmented Reality **11**

1.1 What Is Augmented Reality? 11
1.2 The Origins 12
1.3 Magic Lens vs. Magic Mirror 13
1.4 Marker vs. Markerless AR 14
1.5 Examples of Applied AR 17

2 Getting AR Running **27**

2.1 Augmented Reality Setup 27
2.2 More ARTag Demos 31
2.3 Diagnosing Issues with the AR Demos 37

3 Computer Graphics Basics **41**

3.1 The Pinhole Model 41
3.2 Transferring 3D Points Between Coordinate Systems . . 47
3.3 Transferring Points Using Matrix Math 49
3.4 The Rendering Pipeline 55
3.5 Viewing Frustum and Clipping Planes 57
3.6 Scan-Line Converting Polygons 61
3.7 Summary of Rendering Procedure 62

4 Using OpenGL with Augmented Reality **64**

4.1 About OpenGL 65
4.2 Basic OpenGL Demo 66
4.3 Compiling for Windows 67
4.4 Compiling for Linux 67
4.5 Compiling for Mac OS X 69
4.6 The OpenGL Template Program 70
4.7 Setting the Frustum 74
4.8 Translate Rotate Scale 79
4.9 The Matrix Stack 82
4.10 Motion Example Program 84

4.11 Other Graphics Primitives: Polygons and Triangle Strips 88
4.12 Rendering with Pointers 92
4.13 Rendering with Indices 92
4.14 The OpenGL glDrawElements Function 96

5 Introduction to AR Programming 101
5.1 AR Development Setup 102
5.2 A Note About Textures and OpenCV 102
5.3 Compiling AR Projects for Linux 104
5.4 Compiling ARTag Projects 104
5.5 Revisiting Demo Customization 113
5.6 Configuring Your Camera 115
5.7 ARTag Marker Format 119

6 Writing Applications for ARTag 124
6.1 Introduction to ARTag Applications 124
6.2 ARTag Functions 124
6.3 Using ARTag Functions 126
6.4 Getting the ARTag SDK 126
6.5 Camera Input to Your Program 127
6.6 Basic OpenGL Program Running with ARTag 127
6.7 Motion and Multiple Array Objects 136
6.8 Initializing and Terminating AR Applications 143
6.9 Detecting Markers 145
6.10 Setting Virtual Camera Viewpoint 146
6.11 Finding Marker Array Size 147
6.12 Mapping Between Objects 148
6.13 Mapping from Objects to the Image 149
6.14 Creating Marker Patterns 149
6.15 Miscellaneous Functions 152
6.16 Performance Issues 153
6.17 Scale Issues with Array Dimensions 153
6.18 Automatically Sizing Augmentations to Array Size . . . 157
6.19 Using artag_project_between_objects 160

7 Model Loading and Rendering 166
7.1 A Textured Polyhedral Model 167
7.2 OBJ File Format: Sneak Peek 172
7.3 Reorganizing a Model for Single Indices 173
7.4 More About OpenGL's glDrawElements 176
7.5 The OBJ File Format 179

CLICK HERE to purchase this book now.

7.6 highgui: Reading JPEG, BMP, and TGA Textures 192
7.7 VRML Files 193
7.8 Using ARTag's Mesh Manager 196
7.9 Conclusions 200

8 Your Own AR Game **202**
8.1 Basic ARTag OpenGL AR Program 205
8.2 Add Some Walls to Make a Maze 209
8.3 Add a Keyboard-Controlled Tank 215
8.4 Multiple Tanks, Simple Animations, and the Request-Simulate Architecture 220
8.5 Preventing Tanks from Driving Through Walls 229
8.6 Add Flying Missiles 230
8.7 Summary 238

9 Enhancing Your AR Game **239**
9.1 AI for Robot Tanks 239
9.2 Vision for Robot Tanks 243
9.3 Behavior #1: Firing a Missile 250
9.4 Behavior #2: Rotating to Face the Enemy 251
9.5 Behavior #3: Responding to Attack 253
9.6 Moving Tanks 253
9.7 Behavior #4: Moving Agents: Getting from Point A to B . 256
9.8 Path Planning 262
9.9 Behavior #6: Patrolling 272
9.10 Behavior #5: Helping 277
9.11 Complete Tank Wars 280
9.12 Conclusions to Tank Wars 280
9.13 Expanding Tank Wars 282

A How Does ARTag Work? **286**
A.1 The ARTag Marker System 286
A.2 When to Use ARTag 291
A.3 Fiducial Marker Systems 293
A.4 Comparing Fiducial Marker Systems 296
A.5 ARTag Markers Using Arrays 297
A.6 Further Reading on ARTag 300

B Troubleshooting **302**
B.1 General Issues 302
B.2 Webcam Issues 302
B.3 ARTag Issues 302
B.4 ARTag Development Issues 305

CLICK HERE to purchase this book now.

B.5 Linux Issues 307
B.6 OpenCV Issues 307

Acknowledgments **308**

Glossary **309**

Index **311**

The Pragmatic Bookshelf

The Pragmatic Bookshelf features books written by developers for developers. The titles continue the well-known Pragmatic Programmer style and continue to garner awards and rave reviews. As development gets more and more difficult, the Pragmatic Programmers will be there with more titles and products to help you stay on top of your game.
