Mastering Dojo

JavaScript and Ajax Tools for Great Web Experiences

This PDF file contains pages extracted from Mastering Dojo, published by the Pragmatic Bookshelf. For more information or to purchase a paperback or PDF copy, please visit <http://www.pragprog.com>.

Note: This extract contains some colored text (particularly in code listing). This is available only in online versions of the books. The printed versions are black and white. Pagination might vary between the online and printer versions; the content is otherwise identical.

The book you're reading is still under development. As part of our Beta book program, we're releasing this copy well before we normally would. That way you'll be able to get this content a couple of months before it's available in finished form, and we'll get feedback to make the book even better. The idea is that everyone wins!

Be warned. The book has not had a full technical edit, so it will contain errors. It has not been copyedited, so it will be full of typos and other weirdness. And there's been no effort spent doing layout, so you'll find bad page breaks, over-long lines with little black rectangles, incorrect hyphenations, and all the other ugly things that you wouldn't expect to see in a finished book. We can't be held liable if you use this book to try to create a spiffy application and you somehow end up with a strangely shaped farm implement instead. Despite all this, we think you'll enjoy it!

Throughout this process you'll be able to download updated PDFs from your account on <http://pragprog.com>. When the book is finally ready, you'll get the final version (and subsequent updates) from the same address. In the meantime, we'd appreciate you sending us your feedback on this book at <http://books.pragprog.com/titles/rgdojo/errata>, or by using the links at the bottom of each page.

Thank you for being part of the Pragmatic community!

Contents

1	Introduction	11
1.1	Key Aspects of Dojo	14
1.2	Using the Book	17
1.3	Acknowledgements	19
I	Ajax the Dojo Way	20
2	Powerful Web Forms Made Easy	21
2.1	What Customers are Saying About Your Form	22
2.2	Installing Dojo on Your Own Server	22
2.3	Adding Dojo and Dijit to a Page	23
2.4	Laying Out the Form	27
2.5	Improved Form Controls	31
2.6	Wrapping It Up	34
3	Connecting to Outside Services	38
3.1	Dojo Remote Scripting	38
3.2	JavaScript Idioms for Calling XHR	40
3.3	A Wish List with dojo.Data and dojox.Grid	45
3.4	Researching Cigars using JSONP	56
3.5	Reviews with dojo.xhrGet	63
3.6	Errors and Debugging	67
II	The Dojo APIs	71
4	Dojo In Depth	72
4.1	Modularizing JavaScript	72
4.2	Dojo Source Code Organization	76
4.3	Loading Dojo	79

5	JavaScript Language Extensions	83
5.1	Binding with <code>dojo.hitch</code>	83
5.2	JavaScript 1.6 Array Methods	90
5.3	Support for Polymorphism	94
5.4	Combining, Structuring, and Copying Objects	97
6	Asynchronous Programming	103
6.1	Programming DOM Events with Dojo	103
6.2	Connecting to User-Defined Events with Dojo	118
6.3	Publish-Subscribe	123
6.4	Managing Callbacks with Dojo Deferred	125
7	DOM Utilities	143
7.1	Core Dojo DOM Utility Functions	143
7.2	Finding and Editing Nodes	147
7.3	Inserting, Moving, and Deleting DOM Nodes	159
7.4	Positioning DOM Nodes	162
7.5	Animation	169
8	Remote Scripting with XHR, <code>script</code>, and <code>iFrame</code>	179
8.1	RCG NOTES	179
8.2	Native Remote Scripting with Dojo	179
9	Object-Oriented Programming	196
9.1	Defining Classes with Dojo	197
9.2	Defining a Simple Class	200
9.3	Defining a Subclass with Single Inheritance	205
9.4	Mixins and Multiple Inheritance	210
9.5	Preprocessing Constructor Arguments	218
9.6	Resolving Property Name Clashes	222
9.7	Summary	225
10	Dojo Data	227
10.1	Dojo.data Architecture	228
10.2	FilteringSelect and ComboBox Widgets	232
10.3	Partitioning	236
10.4	Bundled Drivers	240
10.5	Using Data Stores from JavaScript	242
10.6	A Yahoo Search Driver	247

11 CDN and The Build System	255
11.1 The Dojo Loader	255
11.2 The Cross-Domain Loader	262
11.3 The Dojo Build System	266
11.4 Enhancing Performance	266
11.5 Build Types	268
11.6 Custom Builds	270
11.7 Serving Dojo From a Content Distribution Network	274
III Advanced Dijit	277
12 Scripting Widgets	278
12.1 What Exactly is a Widget?	278
12.2 Finding and Manipulating Declarative Widgets	281
12.3 Creating Instances Programmatically	285
12.4 Extension Points	290
12.5 Example: Live Forms	296
13 Tree	299
13.1 A Simple Tree	299
13.2 Hierarchical Datastores	302
13.3 Extension Points	307
13.4 Manipulating the Tree	310
13.5 Drag and Drop	314
14 Grid	324
14.1 Grid Fundamentals	325
14.2 Row and Cell Actions	328
14.3 Cell Editing	328
14.4 Sorting and Filtering	328
14.5 The Graph Widget	328
15 Advanced Form Widgets	329
15.1 Common Features	329
15.2 Validation and i18n	329
15.3 Rich Text Editor	329
15.4 Action Buttons, Toolbars, and Menus	329
15.5 Inline Editing	329
15.6 Dialog Boxes	329
15.7 Progress Bars and Feedback	329
15.8 A11y, Keyboards and Screen Readers	329

16 Dijit Themes and Design	330
16.1 Theme Structure	333
16.2 Changing Look and Feel	339
16.3 All ly And Themes	343
17 Creating and Extending Widget Classes	347
17.1 Method 1: Dijit.Declaration	348
17.2 Widget Classes Using dojo.declare	353
17.3 The Widget Lifecycle	357
17.4 Extending Widgets	361
17.5 Example: A Yahoo Answer Widget	364
IV Building a Rich Internet Application	370
18 Rich Internet Application - Part I	371
18.1 Designing a Rich Internet Application	371
18.2 Basic Framework Structure	375
18.3 The Device Class and DOM Utilities	379
18.4 The Controller Class	385
18.5 The Mock Server	388
19 Rich Internet Application - Part II	390
19.1 Title	390
V Appendices	391
20 Debugging	392
21 JavaScript, Distilled	393
21.1 Title	393
22 Configuration Switches	394
23 Select Code	396
23.1 Title	396
A Bibliography	397
Index	398

The Pragmatic Bookshelf

The Pragmatic Bookshelf features books written by developers for developers. The titles continue the well-known Pragmatic Programmer style, and continue to garner awards and rave reviews. As development gets more and more difficult, the Pragmatic Programmers will be there with more titles and products to help you stay on top of your game.
